### Language Arts 6A

By the end of our 6th grade Language Arts course, students should be able to demonstrate mastery in the following areas of study:

- Demonstrate effective communication/presentation skills
- Research word origins
- Demonstrate advancement in reading comprehension skills including understanding main idea, recall of specific facts, arranging events in sequential order, recognizing various persuasive devices, summarizing a selection, understanding cause and effect relationships, predicting probable future outcomes or actions, drawing logical conclusions and evaluating and making judgments
- Write increasingly sophisticated multi-paragraph essays to persuade, argue and inform
- Demonstrate advancement in sentence punctuation, capitalization, usage and grammar
- Demonstrate advancement in vocabulary and spelling skills
- Demonstrate advancement in recognizing literacy devices such as use of personification, recognize difference in first and third person point of view, describing the time and setting of the story and explaining the feelings and emotions of literary characters
- Write legible cursive letters
- Listen to and appreciate sound devices
- Demonstrate the ability to use a dictionary properly
- Make presentations using modern technology (optional)

Cost Per Course \$ 150.00

### Language Arts 7A

By the end of our 7th grade Language Arts course, students should be able to demonstrate mastery in the following areas of study:

- Demonstrate advancement in ability to use all parts of speech correctly, including but not limited to proper use of nouns, pronouns, verbs, adjectives, adverbs, prepositions, conjunctions and interjections in written and oral communication
- Recognize elements of literature in studied works, including following plot and character development, recognizing figurative language, literary traditions in cultural groups and recognizing folk literature, legends and myths
- Demonstrate ability to use critical listening skills to evaluate forms of communication
- Demonstrate continued advancement in writing concepts and skills, including but not limited to using the composing process to plan and generate writing; write for a variety of purposes and audiences; synthesize information from several sources
- Demonstrate increasing ability in vocabulary usage and proper spelling techniques
- Demonstrate continued advancement in reading concept and skills including but not limited to choosing the appropriate meaning of multi-meaning words, perceive cause and effect relationships, prediction of probable future actions, identifying the authors point of view and purpose, follow increasingly difficult written directions
- Demonstrate ability to use library card catalogs and standard library references
- Demonstrate the ability to use a dictionary and a thesaurus properly
- Make presentations using modern technology and the use of modern technology as a research tool (optional)

#### Recommended Textbook Choices

Cost Per Course \$ 150.00

### Language Arts 8A

By the end of our 8th grade Language Arts program, students should be able to demonstrate mastery in the following areas of study:

- Demonstrate the ability to analyze and critique contemporary and classical literature, follow increasingly difficult plots and character development in stories, develop further understanding of the literary devices of setting and mood; identify implied main ideas and related details and the ability to arrive at a generalization from a given series of details and/or assumptions
- Demonstrate ability to interpret diagrams, graphs and statistical illustrations
- Demonstrate continued advancement in language and concepts skills, including but not limited to use of objects, complements, phrases and clause to produce a variety of simple, compound and complete sentences; use all parts of speech correctly; use correct agreement between subjects and verbs and between pronouns and antecedents; use correct subjects-verb agreement and personal pronouns, indefinite pronouns and compound subjects
- Demonstrate the ability to edit written work for clarity of language, appropriate word choice and effective sentences
- Demonstrate increasing ability in vocabulary usage and proper spelling techniques
- Demonstrate ability to evaluate credibility/appropriateness of media, research, and own arguments
- Make demonstrations using modern technology and the use of modern technology as a research tool (optional)

### Science 6A

By the end of our 6th grade Science course, students should be able to demonstrate mastery in the following areas of study:

- Apply Newton's Law of Motion
- Analyze simple and complex machines
- Explain ways in which energy can be changed from one form to another
- Analyze and classify substances by their physical and chemical properties and changes
- Analyze the Earth's water cycle
- Analyze the components of the solar system
- Practice safe laboratory skills and be able to set up and conduct experiments using control groups and experimental groups; be able to design an experiment to test a hypothesis
